

Making PyExaFMM Performant

Srinath Kailasa

Department of Mathematics
University College London

May 4, 2021

Table of Contents

Fast Python

Is Numba Up To It?

Language Bottlenecks for Speed

Software Design

(Adequately) Separating Concerns

It's All About the Data

Grappling With the Interpreter

Accelerating M2L

Compression with Randomised SVD

Storing Unique Interactions

Table of Contents
